INTRODUCTION

This report presents information from the 1971 Census of Canada, for the population and the labour force, 15 years and over, showing 1970 income groups, age, work experience and sex. Data are shown for Canada, provinces and census metropolitan areas.

In the 1971 Census, labour force refers to non-inmates 15 years and over, who, in the week prior to enumeration, worked for pay or profit, helped without pay in a family business or farm, looked for work, were on temporary lay-off, or had jobs from which they were temporarily absent because of illness, vacation, strike, etc. Persons doing housework in their own home or volunteer work only, are excluded from the labour force. Also excluded are female farm workers who indicated that they helped without pay in a family farm or business for less than 20 hours. It should be noted that there are indications that the labour force counts for Quebec may be somewhat underestimated due to response problems. Further information regarding the labour force counts is available in the Population and Housing Research Memorandum (PH-EC-4) "Background Information on the 1971 Census Labour Force Data". This paper can be obtained on request from the Census User Inquiry Service.

Average and median income figures in this report are calculated only for persons reporting income. Medians are calculated from group data shown in this report.

Comparability with 1961 data: Coverage in the 1961 Census was from a 20% sample of non-farm private dwellings only, and was exclusive of the Northwest Territories. In 1971 coverage was extended to include farm and collective dwellings and the Northwest Territories. The data from the two censuses are therefore not directly comparable.

The information in this report was collected on a 33 1/3% sample basis. As a result, the population for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official population counts (see Catalogue No. 92-715).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Aggregate income calculated from these data should be used with caution as averages were calculated prior to rounding.

DEFINITIONS

Income: Persons 15 years and over, were asked to report total income received during the calendar year 1970 from each of the sources explained below:

- (a) **Wages and salaries** (amount before deductions for income tax, pensions, unemployment insurance, etc.): Includes military pay and allowances, tips, commissions and bonuses and piece-rate payments received during 1970, but excludes free room and board or other payments in kind.
- (b) **Net income from self-employment (non-farm)** (gross receipts minus expenses of operations): Amounts received from own non-farm unincorporated businesses or from a professional practice during 1970. In the case of partnerships, only the respondent's share was to be included.
- (c) **Net income from farm operation** (gross receipts minus expenses of operations including depreciation): Amounts received from the operation of a farm, either for own account or in partnership, during 1970. Advance, supplementary or assistance payments to farmers (including Lower Inventory for Tomorrow programme payments) by federal or provincial governments were to be included.

Ce bulletin présente des renseignements du recensement du Canada de 1971 en ce qui concerne la population et la population active de 15 ans et plus, par tranche de revenu en 1970, âge, antécédents de travail et sexe. Les données sont indiquées pour le Canada, les provinces et les régions métropolitaines de recensement.

Au recensement de 1971, la population active comprend les non-pensionnaires d'institution de 15 ans et plus qui, au cours de la semaine précédant le dénombrement, ont travaillé contre rémunération ou en vue d'un bénéfice ou sans rémunération dans une entreprise ou une ferme familiale, ont cherché du travail, étaient en congédiement temporaire ou avaient un emploi dont ils étaient temporairement absents à cause d'une maladie, de vacances, d'une grève, etc. Les personnes faisant seulement des travaux ménagers chez elles ou du travail bénévole sont exclues de la population active. Sont également exclues les travailleuses agricoles qui ont indiqué avoir travaillé moins de 20 heures sans rémunération dans une ferme ou une entreprise familiale. Il est à noter que, suivant certaines indications, la population active du Québec est peut-être quelque peu sous-estimée, en raison de certaines difficultés d'interprétation. On trouvera de plus amples renseignements concernant les chiffres de la population active dans une Note de recherche sur la population et le logement (PH-EC-4) intitulée "Étude des données du recensement de 1971 sur la population active". Cette note de recherche peut être obtenue sur demande au Service-utilisateurs du recensement.

Dans ce bulletin, le revenu moyen et le revenu médian ne sont indiqués que pour les personnes ayant un revenu. Les médianes sont calculées d'après les données de groupe présentées ici.

Comparabilité avec les données de 1961: Au recensement de 1961, les données étaient fondées sur un échantillon de 20 % des logements privés non agricoles seulement et excluaient les Territoires du Nord-Ouest. En 1971, le champ d'observation a été étendu aux logements agricoles et aux logements collectifs, ainsi qu'aux Territoires du Nord-Ouest. Les données des deux recensements ne sont donc pas directement comparables.

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que les chiffres de population pour une région géographique donnée ne sont pas forcément les mêmes que ceux des publications dont les données sont intégrales. Bien entendu, ce sont ces dernières données qui représentent les chiffres officiels de population (voir la publication n° 92-715 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par recoupements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Nota: Les chiffres du revenu total fondés sur ces données doivent être utilisés avec circonspection, car les moyennes ont été calculées avant l'arrondissement.

DÉFINITIONS

Revenu: Les personnes de 15 ans et plus devaient indiquer le revenu total reçu pendant l'année civile 1970 de chacune des sources suivantes:

- a) **Rémunération:** Rémunération totale avant déduction de l'impôt sur le revenu, des cotisations à un régime de pensions, des cotisations d'assurance-chômage, etc., y compris les soldes et indemnités militaires, les pourboires, les commissions et les gratifications ainsi que les paiements à la pièce reçus en 1970, mais sans la pension gratuite ou les autres paiements en nature.
- b) **Revenu net d'un emploi autonome (non agricole):** Recettes brutes, moins les dépenses d'exploitation, provenant de l'exploitation en 1970 d'une entreprise non agricole non constituée en corporation ou de l'exercice d'une profession pour compte propre. Dans le cas d'une société en nom collectif, seule la part du recensé est prise en compte.
- c) **Revenu net provenant d'une exploitation agricole:** Recettes brutes, moins les dépenses d'exploitation, y compris l'amortissement, provenant de l'exploitation en 1970 d'une ferme pour compte propre ou en association. Les paiements anticipés, les paiements supplémentaires et les paiements d'assistance (y compris les paiements en vertu du programme de réduction des stocks de céréales) versés aux cultivateurs par le gouvernement fédéral ou les provinces sont pris en compte.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.
